If any items are damaged or stolen you will be responsible for 100% of the repairs or replacement of the items in question. To avoid damage please do not use staples or nails in the tables or center poles of the tent. Please remove any tape from the tables after use.

### **DAMAGE TO SPRINKLER LINES, SPRINKLER HEADS, GAS LINES HOME & LAWN WAIVER**

With tension tents and some frame tents we use stakes to anchor your tent into the ground. These stakes go approximately 24-30 inches into the ground. If you have underground sprinkling and you want your tent set up on the grass where you have this underground sprinkling system please be advised of the following:

- Superior Tents is not responsible if a sprinkler line, gas line or sprinkler head is damaged during installation or removal of your tent.
- Superior Tents will not pay to replace or repair any damage that is done to the water system, lawn, home or surrounding area resulting from installation or removal of your tent.
- You must have all sprinkler lines and heads properly marked off and easily seen so that the set up crew can identify where the lines run to try to avoid any damage.
- Superior Tents recommends to every customer to call Miss Dig 811 or 800-482-7171 prior to any underground installation of stakes.
- For example: If a you stated the water lines run north & south when in fact they ran east & west and a water line is hit by a stake you are 100% responsible for the repair and any damage that may have been caused.

You must sign this waiver on the line below before your tent can be installed.
