DAMAGE TO SPRINKLER LINES&HEADS, GAS LINES, UNDERGROUND DOG FENCE, HOME & LAWN WAIVER

With tension tents and some frame tents we use stakes to anchor your tent into the ground. These stakes go approximately 24-30 inches into the ground. If you have any of the above listed items in the area you want your tent set up please be advised of the following:

- Superior Tents is not responsible if a sprinkler line, gas line, sprinkler head or underground dog fence is damaged during installation or removal of your tent.
- Superior Tents will not pay to replace or repair any damage that is done to the water system, lawn, home or surrounding area resulting from installation or removal of your tent.
- You must have all sprinkler lines and heads properly marked off and easily seen so that the set up crew can identify where the lines run and do our best to avoid any damage.
- Superior Tents recommends to every customer to call Miss Dig 811 or 800-482-7171 prior to any underground installation of stakes.
- For example: If you stated your water lines run north and south when in fact they run east and west and a water line is hit by a stake you are 100% responsible for the repair and any damage that may have been caused.
